#### Asset allocation

### **Composite facts**

# **Product objective**

To achieve steady long-term growth of capital and income by investing in a diversified combination of domestic assets, where the asset allocation is tactically managed. This product targets a long-term real return of 5% (CPI + 5%). It is managed in such a manner that the likelihood of capital loss over 12 months is reduced. However, no guarantee of capital over any period is given.

### Investor/product profile

Suitable for Institutional investors that seek steady inflation-beating growth of capital through an actively managed domestic only portfolio that complies with Regulation 28 of the Pension Funds Act.
